

Bartlett Conservation Commission  
August Meeting Minutes  
8/15/2024

Present: Chris Fithian, Steve Frackleton, Craig Bille  
Meeting called to order at 6:00 PM

New Business:

Mail received:

Multiple packets were received this month giving notification of various projects around Town that have wetland impacts. No action on any of the three projects listed below was required by the Commission.

- CedarCroft Farm Development, notification received of acceptance of Alteration of Terrain Permit
- Christmas Loft Warehouse, culvert replacement
- Attitash Mountain Resort, Stoney Brook bank stabilization

Old Business:

- The invasive species tool cache is now complete and available to Bartlett residents for use.
- Member Frackleton hosted a 'Grand Tour of Bartlett' with the NH Department of Agriculture's Invasive Species Coordinator, Doug Cygan. Many invasive species of concern were noted throughout the town. On Wednesday, Aug 21st there will be a summary follow-up presentation at the Select Board meeting to review the findings of this field visit and to discuss mitigation strategies.
- The planned Stillings Grant Conservation Easement Monitoring on October 5th may have to be rescheduled due to a conflict with other member volunteer commitment.
- Work continues to mitigate invasive species at 'Big Rock' Town Beach. Members have been monitoring invasives at this site.

Meeting adjourned at 6:45 PM.
